About the Restaurant

We opened in 2004 serving burgers and tacos to hotel guests. From a staff of two (a manager who tended bar and waited tables plus a part time cook) we've grown into the #1 rated restaurant on the island as determined by TripAdvisor.

From the outset, our philosophy has been to prepare each dish with the freshest ingredients and to be the best rendition of that item anywhere. We unashamedly imitate great dishes from great restaurants and sometimes add a variation of our own. Burgers came from the original research kitchen at Chili's, the fish taco from the Fish Market in Dallas, the Asian Salad from Houston's, Havana Chicken from Il Agibe in Cuba, the Painkiller from Pusser's, and on and on.

Who would have thought that this tiny restaurant that doesn't advertise, tucked away in a hard to find location would have a wait list for almost every meal. Thank you for joining us and welcome to Cayman's best kept secret please enjoy!
